TAKE A WINE TOUR THAT'S AS SPECIAL AND INDIVIDUAL AS YOU ARE

There are a lot of one-size-fits-all wine tours out there - yet wine tasting is very personal. It reflects your tastes, your personality and your preferences and with over 700 wineries in the Napa and Sonoma wine country, choosing which ones to go to and getting there can be a daunting task.

Here at PF Wine Tours, we have personally visited, tasted and experienced every winery we recommend and through that process, found quite a few "hidden gems" - wineries that don't allow large tour groups and where you often meet the winemaker and/or owner. We have weeded through many and only take you to places that meet our criteria on a consistent basis.

Because we're locals and Massimiliano has had his own business,, Handcrafted Woodworks, here in Napa for over 15 years (www.mfantucci.com), having custom-built and restored many fine pieces for winery owner's homes and wineries, we have a connection to a lot of the best wineries - and you may reap the benefits of our close relationship with them. Whether it's the chance to taste a rare vintage offered only to select clientele...attend a party to celebrate the release of a new label...or enjoy a seasonal wine, we can get you the VIP treatment you deserve.

Our wine tours generally cover 4 wineries or more, it is up to you. We don't recommend more than 5 wineries in a day as your palate will be shot by that time! However, it is totally up to you!
